Subject: ACTION REQUIRED: updated staffing matrix (IRIS Management Council Meeting)

Hi, Gina asked me to update the staffing matrix to include space for you to add information about HHRA projects 2-9. I've added a second worksheet to this file (attached). Just enter the numbers for each person under each project and they will be summed automatically and also transferred to the main worksheet. Please send back to me by noon on Monday. I will compile everyone's responses back into a master document. Please let me know if you have questions or problems with the file.

Thanks

Vicki

Subject: IRIS MC mtg - CANCELLED due to Bob's party - BUT - read whole e-mail for important info on items due!!

Hi All – We are going to cancel today's MC mtg due to Bob's party.

However – we would like to follow-up on a few urgent items via e-mail:

1. SIX MONTH OUTLOOK – The newest version of the six month outlook is attached to this e-mail. We have our monthly IRIS briefing with Kavlock next Wed and need to have materials to him by COB Monday. IF you have any changes or unable to make any of the dates projected, please let us know by MONDAY @ NOON.
2. DATA CALL – Ken is asking for some more granularity regarding FTE utilized on IRIS and the other HHRA projects. We have most of this info conveyed in our staffing matrix, but we need a bit more. VICKI WILL BE SENDING AN UPDATED MATRIX WITH INSTRUCTIONS – but, in the meantime, below is a description of what we need to capture, so you can start thinking about it. THIS WILL BE DUE MONDAY @ NOON (Ken wants it before Tuesday).
 - a. We will need you to please check out the “allocated to IRIS” column (HHRA Project 1) and verify that this is correct for each of your staff members on this sheet. This number should reflect the total time allocated to IRIS assessments only (HHRA Project 1).
 - b. Next, the other HHRA columns will need to capture efforts across HHRA projects 2-9. So far, we have just indicated people's participation in other HHRA projects with a letter. We need to get those populated with an actual number (fraction of an FTE to the nearest tenth) that accurately represents how much time is/will be spent in the other HHRA areas (no need to capture down to task level – just overall time spent working in the project area). Vicki will likely create a separate tab within the workbook that will serve as a worksheet for you to record your data. That will then sum up to a master column on the main matrix with a number that will represent the total fraction of someone's FTE across Projects 2-9.
 - c. Then – you will need to QA the numbers for your staff, making sure that the time spent on the various HHRA projects, including IRIS, doesn't add up to more than 1.0 FTE.
 - d. STAY TUNED FOR INSTRUCTIONS FROM VICKI.
3. Please look over the e-mail from Vicki below that provides notes from the last MC and lists action items. Please look at the action items and let me know where you stand on those via e-mail.

Thank you!
Gina
